

# V2 READERS Safety Glasses

**Now Available,  
Approved  
Dual-lens  
Safety Reading  
Glasses!**

Until now you have only been able to get traditional style reading glasses, or stick-on lenses. The Kit Care V2 is a bifocal safety glass with a dual curvature lens and integrated side shields.

According to the latest Census there are just over 80 million North Americans between 40 and 65 years of age. All of these individuals will require reading glasses, and a large proportion of them will need reading glasses in combination with protective safety glasses. Kit Care V2 is proud to meet this unfulfilled need in high impact safety reading glasses!

- Available in the following bifocal powers: 1.0, 1.5, 2.0 and 2.5
- Temples adjust to four different lengths.
- 9.75 Base curved lens provides full side protection without distracting seams or traditional type side shields
- Lenses are coated for superior scratch resistance
- Lenses provide 99% protection against harmful UV rays
- Tested to ANSI Z87.1-2003 High Impact, CSA Z94.2 High Impact, CE-EN-166
- Lifetime warranty on frames

**V2-10** Reading safety glasses with +1.0 Diopters

**V2-15** Reading safety glasses with +1.5 Diopters

**V2-20** Reading safety glasses with +2.0 Diopters

**V2-25** Reading safety glasses with +2.5 Diopters

V2 is also available with gray lenses. To order, specify model number as above, followed by the letters GY. Example: V2-20GY
