

# ACTAR CPR TRAINING AIDS

## ACTAR 911 SQUADRON

### Product Code

**ACTAR3**

- ✦ The ACTAR 911 SQUADRON is your most cost effective choice. Includes 10 manikins, 100 disposable lungs, a laminated reference card and a durable nylon squadron bag with carry handles and shoulder strap.
- ✦ Each ACTAR 911 includes the important features and landmarks for proper learning.
- ✦ The ACTAR 911 SQUADRON is ideal for basic CPR instruction, but is also applicable in community CPR classes.

Consider the advantages: increased hands-on practice, no sharing, no waiting, efficient storage and portability.

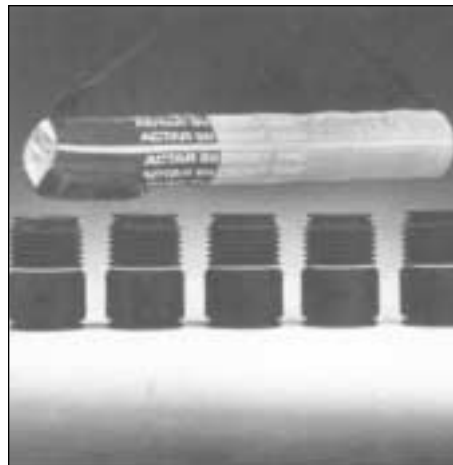

## ACTAR 911 PATROL

### Product Code

**ACTAR6**

- ✦ Ideal for smaller groups, includes 5 manikins, 100 disposable lungs, a laminated reference card and a durable nylon Patrol Bag with carry handles and shoulder straps.

## ACTAR 911 CADET PAC

### Product Code

**ACTAR7**

- ✦ Converts five adult ACTAR 911 manikins into child manikins. Includes 5 child pistons and a soft carry case.
- ✦ Please call or write for a full colour brochure.

## ACTAR 911 TROOPER

### Product Code

**ACTAR5**

- ✦ For personal CPR practice. Includes one manikin, 5 disposable lungs, reference card and carry case.

Simply the best for group instruction. One manikin per student means more hands-on practice. ACTAR is easy to clean, low maintenance, lightweight and compact.

**Product Code**

**ACTAR D-FIB™ CPR-AED TRAINING MANIKIN**

**Product Code**

**4211F** Actar D-fib - Compact 1

**4212F** Actar D-fib - Compact 5

**4213F** Actar D-fib - Compact 10

- ✦ ACTAR D-fib™ is a training manikin with all the necessary features to teach both CPR and AED. Landmarks include Adam's apple, carotid groove, sternum, xiphoid process, lower rib, navel, nipples and collar bones. Fully modelled upper body accommodates training electrode pads.
- ✦ Save time and hassle. With ACTAR D-fib™ disinfection between users isn't necessary. And neither are face shields or mouth barriers. ACTAR D-fib™ disposable lung doubles as face shield/barrier - as shown above.
- ✦ ACTAR D-fib™ is designed to facilitate jaw thrust.
- ✦ ACTAR D-fib™ is light weight and even more compact than ACTAR 911.
- ✦ Compact packaging in singles, 5's or 10's: all with hands-free nylon back-pack or carrying bag.
- ✦ ACTAR D-fib™ is resilient, durable and, when the time comes, entirely recyclable. Contains no PVC.
