

Laerdal Airway Management Trainer

Preferred for realism and diversity

Realistic practice is the key to developing proficiency in airway management skills. The Laerdal Airway Management Trainer's lifelike upper torso and head simulates real world complications when practising a variety of intubation, ventilation and suction techniques.

- ✦ Realistic anatomical features allow demonstration of Sellick Manoeuvre and laryngospasm
- ✦ Practical training in clearing an obstructed airway and suctioning of liquid foreign matter
- ✦ Provides visual inspection of lung expansion and auscultation of breath sounds
- ✦ Simulates stomach inflation and vomiting situation
- ✦ Airway Demonstration Model is standard with each trainer
- ✦ Can be used with Trachlight products. See page 77 for more information
- ✦ Airway Demonstration Model

25 00 00 Laerdal Airway Management Trainer with Airway Demonstration Model

INTUBATION
Allows practising tracheal, pharyngeal, and esophageal intubation. Oral or nasal.

VENTILATION
Permits realistic manual manoeuvres to open the airway. Suitable for practising bag-valve-tube/mask ventilation.

SUCTION
Unique possibilities for practising suction from the oral cavity oropharynx or nasopharynx, orotrachea or nasotrachea via endotracheal tube.

NEW

improved airway allows insertion of Laryngeal Mask Airway and Combi-tube
