

SMOKE MATE "BUTT SNUFFER", STAINLESS STEEL

- ✦ To allow employees who must smoke outside a workplace building to extinguish their cigarette butts in a fire-safe and sanitary method.
- ✦ Attractive enclosed container with recessed opening for easy disposal of cigarette butts. The unique recessed and slim profile design protects the contents from the elements and discourages disposal of paper litter.
- ✦ The unique internal baffle design aids in extinguishing discarded cigarettes. No sand is required.
- ✦ Durable 100% Stainless Steel construction will withstand the harshest weather conditions. It measures 10 inches x 2.25 inches x 15.25 inches (25.4 cm x 5.7 cm x 38.7 cm), and weighs 10lbs (4.50 kg).
- ✦ The collection bin is held in place by a simple key lock which provides easy access and removal of contents.

Product Code

911 Smoke Mate "Butt Snuffer", Stainless Steel

- ✦ Optional heavy-duty zinc-plated stand, suitable for attaching to a hard surface or for burying for a more refined look.

911S Smoke Mate "Butt Snuffer" Stand Only, Zinc-Plated

THE KIT CARE ON-SITE FIRE DEMONSTRATION

THE KIT CARE OUTSIDE HANDS-ON FIRE SAFETY DEMONSTRATION

Includes the basics of Fire Safety above and is industry-specific. In addition, each of your employees attending will have the opportunity to use a fire extinguisher to extinguish an actual fire. None of your employees will leave the seminar until he or she has successfully experienced putting out a fire. Your employees will be taught how to extinguish the various types of fires they may be exposed to at your location as well as the emergency response and evacuation methods required. Kit Care will supply all the fire extinguishers used in the demonstration, rather than use your own, which would leave you without adequate protection while yours are being recharged. Each successful attendee will receive within a week of the seminar a personal certificate of successful completion of the course.

Kit Care Corporation provides this Fire Safety training to many of Canada's largest corporations and believes this service to be a vital part of any corporate Fire Safety programme.
